Name:
Quiz 2-B
Math 345 Elementary Statistics - Crawford
Books and notes (in any form) are not allowed. Show your set-up and work. Good Luck!

1. (3 pts) Answer the following questions about types of data and sampling.
(a). Determine whether the data described below is from a discrete or continuous data set.

A device is used to record the number of texts a driver reads while driving.
(b). Determine whether the type of sampling used below is random, systematic, convenience, stratified, or cluster.

A landscaper is testing the soil in a large lawn for fungal growth by taking samples every four feet on a square grid.
2. ( 6 pts ) The data below gives the cost in dollars for a marriage proposal package at 25 different Major League Baseball stadiums. (Five stadiums don't allow proposals.)

| 39 | 50 | 50 | 50 | 55 | 55 | 75 | 85 | 100 | 115 | 175 | 175 | 200 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 209 | 250 | 250 | 350 | 400 | 450 | 500 | 500 | 500 | 500 | 1500 | 2500 |  |

(a). Find each of the following. [You may use the STAT/LIST features of your calculator, when possible.]
mean median mode midrange
(b). Do any of the data values seem like outliers? If so, which one(s)?
3. ( 6 pts ) The following data gives the IQ Scores for 30 randomly selected people.

| 51 | 64 | 72 | 72 | 78 | 80 | 81 | 85 | 86 | 90 | 91 | 91 | 91 | 98 | 100 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 102 | 104 | 106 | 106 | 106 | 106 | 108 | 109 | 111 | 115 | 115 | 116 | 125 | 128 | 139 |

(a). Use a class width of 20 and a starting score of 50 to
(i) Construct a frequency distribution
(ii) Construct a relative frequency distribution.
(b). If you wanted 6 classes, determine the class width. [Do not construct the frequency distribution.]
